

STOBAG

Conservatory

FOUNDED IN 1964

What started 60 years ago with considerable courage in an old cider cellar has today become a leading, global manufacturer of sun and weather protection solutions with production facilities in Switzerland.

QUALITY & SAFETY

The Gremaud family guarantees you durable, tailored products in uncompromising quality. We achieve this through the consistent use of high-quality materials, modern and environmentally sustainable production processes as well as continuous safety inspections.

FUNCTIONALITY & TECHNOLOGY

Our many years of experience and close cooperation with specialists, architects, planners and dealers enable us to develop innovative products that meet the highest demands. – Yesterday, today and tomorrow.

AESTHETICS & DESIGN

Emotions turn our daily routine into an adventure. The influence of colours and forms play a central role in this. Therefore, STOBAG awnings are customised for you.

**INNOVATIVE SUN
AND WEATHER PROTECTION
SINCE 1964.**

CONSERVATORY

Tropical temperatures in the conservatory?
STOBAG awnings provide the optimal climate
and a perfect atmosphere.

THE SUN WORSHIPPER
CONSERVATORY SHADING

The sun's rays can heat up conservatories to over 60°C – too much for humans, animals and plants. In order to maintain a comfortable temperature behind the glass surfaces in the summer months, STOBAG offers a wide range of textile conservatory shadings. The perfectly coordinated form, function and technology of the systems provide a perfect shading solution for even the most complex conservatory structures. **See page 6**

CONSERVATORY SHADING AIROMATIC | TARGA | ARNEX

The STOBAG conservatory shading systems are the perfect exterior sun protection for conservatories, glass roofs and skylights and provide a pleasant room climate. Due to their compact design, these shading systems are suitable for small or larger areas.

The beautifully designed protective box is self-supporting and, like all other profiles and cast parts, made of high-quality aluminium. When retracted, the end profile closes the box and protects the fabric from the weather. The gas pressure mechanism in the guides, which originates from the automotive industry, ensures that the fabric is always optimally tensioned. Various mounting brackets allow for flexible and simple installation - even with complex substructures.

Special conservatory shapes can be easily shaded by sliding guide rails. The patented ejection mechanism technology allows the fabric surfaces to extend beyond the conservatory roof. The integrated gas pressure mechanism in the guide rails guarantees optimum fabric tension.

The standard built-in electric drive offers high operating comfort. It can be extended by various control variants.

NYON PLUS | ARNEX

OVERGLASS AWNING

Cleverly packaged technology and award-winning design. The overglass awning impresses in every respect.

ARNEX PS8000

UNDER-GLASS AWNING

The elegant under glass awning offers effective sun protection.

ARNEX PS2500

reddot award 2018
winner

EXCELLENT SHADING

Additional shading with the patented telescopic extension strut technology, which can be extended over the conservatory roof to a maximum of 140 cm.

FASTENING

Different types of fixing brackets allow easy and flexible installation on existing substructures. Extra noise damping is also available upon request.

AWNING ACCESSORIES & OPTIONS

More individuality and convenience with additional options.

STOBAG
EXCLUSIVE

INSPIRATION & HARMONY

FRAME COLOURS

STOBAG profiles and frame components are powder-coated to ensure you can enjoy your sun and weather protection systems in the years ahead as much as on the day they arrived. This environmentally-friendly process offers effective protection for the structure against environmental and weather factors. The maximum possible degree of colour uniformity in an endless array is guaranteed by the highest quality standards.

8 Classic, 16 Lifestyle and hundreds of Rainbow colours (RAL) offers a choice to fulfill every wish.

COLORS & EMOTIONS

COVER DESIGNS

By choosing a fabric from the STOBAG Collection from European quality weaving mills, you have opted for a top quality high-tech textile product. Let yourself be inspired and enticed by our extensive colour range and the special characteristics of our UV tested acrylic fabrics.

COMFORT & AMBIENCE

AUTOMATIONS AND CONTROLS

We offer you exactly the comfort that you want from your individual awning system, from simple wind sensors to complex centralised air conditioning. Whether you extend an awning via remote control, turn on atmospheric lighting or want to control the façade and conservatory shading by smartphone: Our reliable automatic systems master any situation.

A modern trend of finely structured colours.

Brilliant high-tech fabrics for more «joy of colour».

* The wind resistances can vary depending on product and version. Specific details in the product flyer.

A photograph of a rooftop garden. In the foreground, there are several large, rounded, pinkish-purple flowering plants. Behind them is a tall, dense green coniferous tree. To the right, a modern glass-walled structure, possibly a conservatory or a covered walkway, is visible. The sky is overcast with soft, diffused light. The overall scene is lush and well-maintained.

THERE IS ONE THING
WE HAVE BEEN PASSING DOWN FOR THE
THE HIGHEST QUALITY STANDARDS.

A photograph of a modern, glass-enclosed balcony. The balcony has a dark frame and large glass panels. Inside, there is a dining table with white chairs and a wooden chair. The view through the glass shows a city and mountains. In the foreground, there is a large potted plant with green and yellow leaves. The text "THREE GENERATIONS:" is overlaid on the bottom left of the image.

THREE GENERATIONS:

INDIVIDUAL SUN AND WEATHER PROTECTION FOR YOUR PERSONAL OASIS OF WELL-BEING.
