

STOBAG

Glass roof

A photograph of a modern, two-story house with a light-colored exterior. The house features large windows and a balcony with a glass railing. In the foreground, there is a well-maintained lawn. A dark-colored pergola with a glass railing is attached to the house, providing shade for an outdoor seating area. The sky is clear and blue. The text is overlaid on a white rectangular background in the lower-left quadrant of the image.

**INNOVATIVE SUN
AND WEATHER PROTECTION
SINCE 1964.**

FOUNDED IN 1964

What started 60 years ago with considerable courage in an old cider cellar has today become a leading, global manufacturer of sun and weather protection solutions with production facilities in Switzerland.

QUALITY & SAFETY

The Gremaud family guarantees you durable, tailored products in uncompromising quality. We achieve this through the consistent use of high-quality materials, modern and environmentally sustainable production processes as well as continuous safety inspections.

FUNCTIONALITY & TECHNOLOGY

Our many years of experience and close cooperation with specialists, architects, planners and dealers enable us to develop innovative products that meet the highest demands. – Yesterday, today and tomorrow.

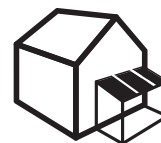

AESTHETICS & DESIGN

Emotions turn our daily routine into an adventure. The influence of colours and forms play a central role in this. Therefore, STOBAG awnings are customised for you.

GLASS ROOF SYSTEMS

Enjoy relaxing moments outdoors with glazing all year round.

THE ALL-ROUNDER GLASS ROOF SYSTEMS

Whoever wants to use their terrace in any weather and does not want to pack away their terrace furniture and barbecue in the winter has made the right choice with a glass roof system. The sturdy aluminium structure with integrated glazed roof and optional shading unit combine to give you effective weather

protection. Your terrace furniture will always be protected from rain and snow. Additional extras such as a vertical front shade, side glazing, a privacy screen or atmospheric lighting can be integrated as required.

OPTIONS

THE FAR-SEEING SOLUTION
SIDE/FRONT GLAZING

With the vertical glazing system from STOBAG you can make optimal use of your terrace and balcony all year round. This is the perfect way to enjoy the surrounding landscape without having to depend on the weather. Through rain or storm, you will have optimum protection, without having to say goodbye to beautiful, panoramic views. **See page 14**

THE UPRIGHT
SIDE/FRONT SHADING

A harmoniously integrated vertical awning, which can also be retrofitted, ensures maximum flexibility. Side shading not only protects against the low-lying sun, but also against unwanted glances or disturbing drafts. **See page 15**

GLASS ROOF SYSTEM VETRO FINO

Free space. Light and limitless. The uniquely slender VETRO FINO glass roof is an unrivalled solution for residential buildings, combining aesthetic sophistication with practical benefits. With its natural light transmission, the VETRO FINO glass roof creates an inviting atmosphere in the interior, reduces the need for artificial lighting and increases well-being. An all-weather roof for every season.

Thanks to the transparent properties of the glass, VETRO FINO gives the room a sense of expansiveness and spaciousness. This creates a feeling of freedom and openness that is particularly appreciated in interior rooms and patio areas.

Thanks to its cubic and timeless design, the uniquely slim design can be integrated into any architectural style. The modular shading and protective elements such as side shading or glazing, lighting and sockets are fully integrated into the sophisticated design. Design doesn't get any better than this.

reddot winner 2022

LOTS OF DAYLIGHT

The slim frame and clear glass surfaces allow natural light into the interior and offer a clear view of the outside.

STOBAG EXCLUSIVE

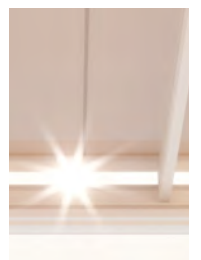

Laterally angled glass elements allow the construction frame to be built more compactly. This is characterised by the unique frame height of just 20 cm.

SEAMLESS SHADE

The fully integrated roof and side shading systems provide seamless shading – no glare and no intrusive gaps in the light.

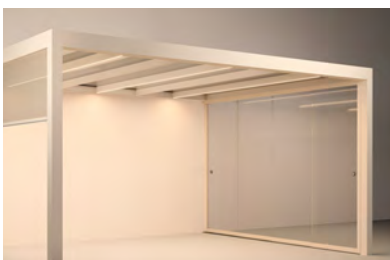

Conventional product solution

LED LIGHTING

The dimmable integrated lighting in the longitudinal beams can be used either in the form of spotlights or strips (Tunable White).

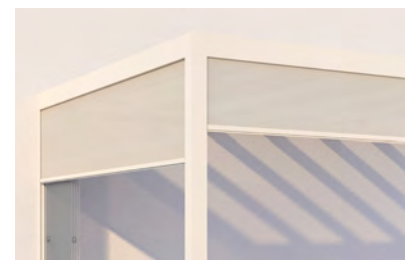

SIDE GLAZING

Enjoy dry seating with a clear view even in heavy rain thanks to our selection of fixed or flexible sliding glazing.

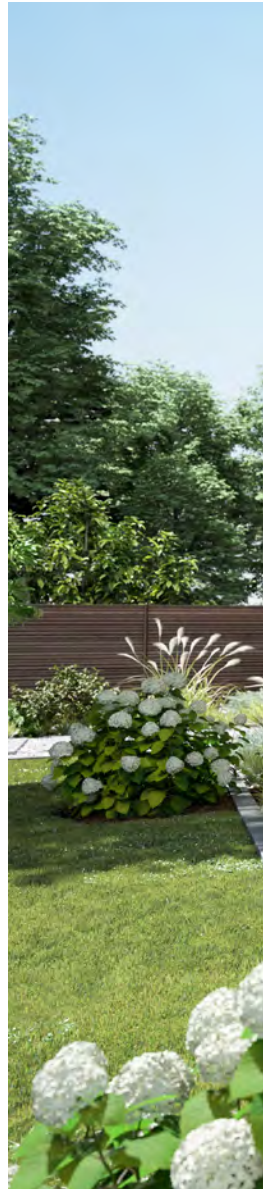

SIDE/FRONT SHADING

Optimum protection on all sides. The extendable side shading protects against high winds, low sun and offers privacy.

GLASS ROOF SYSTEM IMPRESSIONS OF VETRO FINO

GLASS ROOF SYSTEM NYON | NYON PLUS

The all-weather roof for those who want it all. The NYON/NYON PLUS glass roof line is the ideal combination of beauty, versatility and robustness for your roofing needs. Our glass roofs offer a wide range of design options to meet your individual needs.

Whether you are looking for a minimalist solution or a robust all-weather roof with a high load-bearing capacity to withstand the demanding conditions in mountainous regions, the NYON/NYON PLUS glass roof range has the right solution for you.

Our **NYON** glass roof model impresses with its aesthetic beauty and high functionality. Reduced to the essentials, it nevertheless offers an elegant roofing solution for your patio or garden. What characterises the NYON? You have the choice between an optional under-glass awning or shading over the glass. Whichever you prefer.

For those who expect even more, our **NYON PLUS** model offers a variety of options and enables high roof loads that can withstand even the most demanding environments. Ideally suited for areas in mountainous regions or locations with extreme weather conditions. NYON PLUS is characterised by its ability to customise the design, including moving the crossbar back or adding specific cut-outs at the front or rear. This ensures optimum integration into your building.

Discover the diversity of the STOBAG NYON/NYON PLUS glass roof range and enjoy stylish protection from the elements – for your personalised extended living space.

STOBAG EXCLUSIVE

Thanks to continuous shading and a screen at the front, there is no intrusive light gap, which creates a pleasant and glare-free ambience.

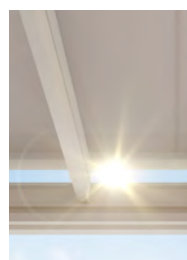

Conventional product solution

NYON | NYON PLUS

VERY HIGH ROOF LOAD

STOBAG offers a glass roof especially for snowy areas that can support up to 600 kg/m² to ensure maximum safety and stability.

NYON PLUS

LED LIGHTING

Dimmable spotlights or strips (Tunable White) provide special lighting accents in the evening hours.

NYON | NYON PLUS

**ARNEX PS8000
OVERGLASS SHADING**

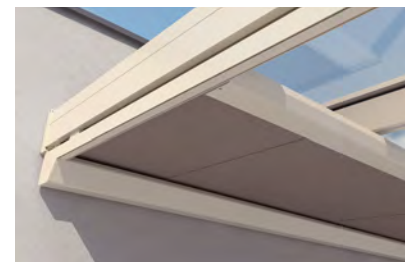

A popular option for shielding heat and UV radiation and creating a pleasant atmosphere under the glass.

NYON | NYON PLUS

**ARNEX PS2500
UNDERGLASS AWNING**

The elegant and optionally installed shading under the glass roof offers an aesthetically pleasing option for protection from the sun's rays.

NYON

FIXED SIDE/FRONT GLAZING

The permanently installed glazing transforms the outdoor living room into a coveted oasis of well-being, even in rainy or cold weather.

NYON | NYON PLUS

SIDE/FRONT GLAZING FLEXIBLE

The flexible sliding glazing offers cosy protection in all weather or allows the summer breeze to flow through the outdoor living room.

NYON | NYON PLUS

AUTOMATIC OPERATION

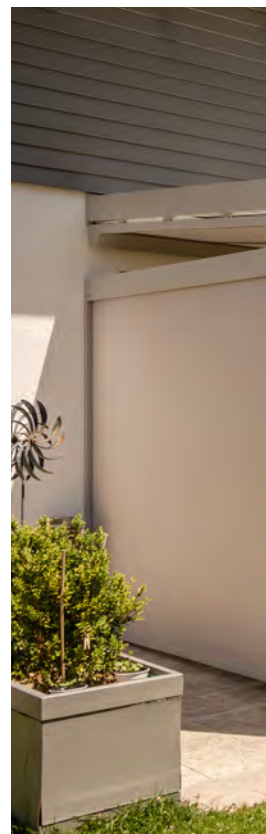

Using an electric drive makes life much easier, especially with remote control or smartphone control.

SIDE / FRONT GLAZING SV1051 | SV1020

Side glazing SV1020

Side glazing is especially suitable when you want to use your terrace or balcony, regardless of the weather. Thanks to side glazing, which can also be retrofitted, you can enjoy hours outside without damp and disturbing drafts.

The STOBAG complete sliding glass panel system SV1020 enables the individual parallel sliding panels to be moved horizontally to one or two sides. On opening or closing the first sliding panel, the other sliding panels are automatically opened and closed by integrated fol-

lowers. The floor-mounted construction means that wide openings can be achieved without the need for additional roof supports.

The profile system SV1051 offers a range of styles in the area of non-insulated fixed glazing. According to customer needs, fixed glazing and special triangular elements with optional skylight with tilt function can be delivered. Optionally, laminated safety glass with clear or matte film can also be used.

The lower ball-bearing mounted carriages ensure optimum and smooth running of the individual sliding panels – even with large opening widths.

SV1020 | SIMPLE SLIDING SYSTEM

The fixed glazing offers a range of set-ups for non-insulated uses.

SV1051 | FIXED GLAZING

SIDE/FRONT SHADING

NYON PLUS with front shading

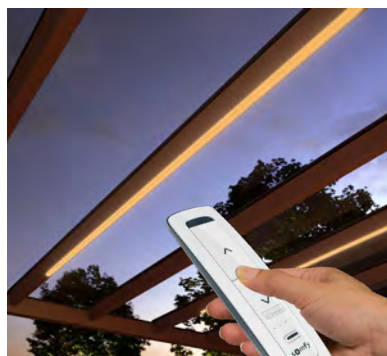

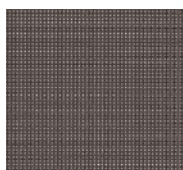

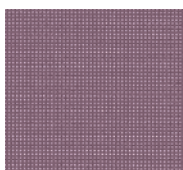

Extend your glass roof with an optional vertical awning. Our VENTOSOL side shading reliably protects you from the sun and wind and provide more privacy. Choose from countless fabric options and decide for yourself how much light should penetrate your new oasis of well-being. The ZIP system, which functions like a zipper, ensures maximum stability of the inner fabric guide.

AWNING ACCESSORIES & OPTIONS

More individuality and convenience with additional options.

STOBAG
EXCLUSIVE

INSPIRATION & HARMONY

FRAME COLORS

STOBAG profiles and frame components are powder-coated to ensure you can enjoy your sun and weather protection systems in the years ahead as much as on the day they arrived. This environmentally-friendly process offers effective protection for the structure against environmental and weather factors. The maximum possible degree of colour uniformity in an endless array is guaranteed by the highest quality standards.

8 Classic, 16 Lifestyle and hundreds of Rainbow colours (RAL) offers a choice to fulfill every wish.

COLORS & EMOTIONS

COVER DESIGNS

By choosing a fabric from the STOBAG Collection from European quality weaving mills, you have opted for a top quality high-tech textile product. Let yourself be inspired and enticed by our extensive colour range and the special characteristics of our UV tested acrylic fabrics.

COMFORT & AMBIENCE

AUTOMATIONS AND CONTROLS

We offer you exactly the comfort that you want from your individual awning system, from simple wind sensors to complex centralised air conditioning. Whether you extend an awning via remote control, turn on atmospheric lighting or want to control the façade and conservatory shading by smartphone: Our reliable automatic systems master any situation.

A modern trend of finely structured colors.

Brilliant high-tech fabrics for more «joy of color».
