

S T O B A G

Pergola and Pavilion

**INNOVATIVE SUN
AND WEATHER PROTECTION
SINCE 1964.**

FOUNDED IN 1964

What started 60 years ago with considerable courage in an old cider cellar has today become a leading, global manufacturer of sun and weather protection solutions with production facilities in Switzerland.

QUALITY & SAFETY

The Gremaud family guarantees you durable, tailored products in uncompromising quality. We achieve this through the consistent use of high-quality materials, modern and environmentally sustainable production processes as well as continuous safety inspections.

FUNCTIONALITY & TECHNOLOGY

Our many years of experience and close cooperation with specialists, architects, planners and dealers enable us to develop innovative products that meet the highest demands. – Yesterday, today and tomorrow.

AESTHETICS & DESIGN

Emotions turn our daily routine into an adventure. The influence of colours and forms play a central role in this. Therefore, STOBAG awnings are customised for you.

PERGOLA & PAVILION

Enjoy life outdoors in sunshine or rain: STOBAG terrace awnings and pavilions provide extra space in the open air.

THE SPACIOUS SOLUTION PERGOLA/TERRACE AWNINGS

Terrace awnings offer a lot of benefits for fans of fresh air. Frontal support make the systems very stable. With sufficient incline and fitted with a waterproof cover they not only provide shade but are also ideal for use in the rain.

There are a number of product solutions to choose from depending on the particular application, desired dimensions and aesthetic appeal.

Pergola awnings, for example, give your terrace a mediterranean feel. Terrace awnings, which combine horizontal and vertical shading in one system, are also available. **See page 6**

THE FLOATING SOLUTION ATRIUM SHADING

The refined solution when it comes to horizontal covers between buildings or existing structures. A new living space is created by a modern design and clever construction. Designed to be fully enjoyed, with the best possible protection from sun and rain.

Our atrium shading is available in two different versions: A pleasant, natural climate is created by the rotating aluminium lamellas, and also by the sturdy folding awning. **See page 10**

THE MODERN PAVILIONS

The multi-purpose terrace pavilions from STOBAG offer not only protection from heat, UV radiation and rain, but also create peaceful and relaxing spaces immersed in nature or on the terrace.

The different installation options, as a free-standing pavilion or fixed to an outer wall, allow your preferences to be perfectly matched to

your circumstances. The Soft-Top variant with polyester fabric in a folded look creates a mediterranean ambience, while the Hard-Top variant with lamellas offers a modern design. **See page 8**

OPTIONS – SIDE GLAZING AND SIDE SHADING

THE FAR-SEEING SOLUTION SIDE / FRONT GLAZING

With the vertical glazing system from STOBAG you can make optimal use of your terrace and balcony all year round. This is the perfect way to enjoy the surrounding landscape without having to depend on the weather. Through rain or storm, you will have optimum protection, without having to say goodbye to beautiful, panoramic views. **See page 14**

THE UPRIGHT SIDE / FRONT SHADING

A harmoniously integrated vertical awning, which can also be retrofitted, ensures maximum flexibility. Side shading not only protects against the low-lying sun, but also against unwanted glances or disturbing drafts. **See page 15**

PERGOLA/TERRACE AWNINGS

PERGOLINO | RIVERA

Make your terrace into a private holiday haven! With a pergola or terrace awning from STOBAG you are not only protected from damaging UV radiation, the sun's heat and rain, you can also add a Mediterranean flair to your terrace – ideal for relaxation and enjoyment!

The horizontal shading provides optimum protection and is also waterproof, depending on the version. With perpendicular shading you are perfectly protected from the sun, wind and prying eyes.

Optional side and front glazing, which protects from wind and rain without obstructing the view, is also available, so you can enjoy your terrace even in poor weather.

The corrosion-resistant aluminium construction ensures rigidity and a motor installed as standard for ease of handling.

PERGOLINO

AUTOMATIC LOCKING

Manual locking of the profile is no longer necessary thanks to the convenient and patented automechanical system.

PERGOLINO

INTEGRATED LED LIGHTING

If desired, the harmoniously-integrated, dimmable LED lighting provides enjoyment on the terrace until late into the night.

PERGOLINO

RAIN RUN-OFF

Thanks to the integrated rain run-off and the use of the dirt-repellent polyester fabric RESISTANT (fire protection class B1), the system can also be used without worries when it is raining.

RIVERA

COUPLED SYSTEMS

Large shading systems with up to 700 cm projection and only two frontal supports can be coupled as often as required.

RIVERA

PAVILIONS

BAVONA

Elegant terrace pavilion with modular roof system and convenient expansion options. From spring to autumn, the new Outdoor Living Pavilion creates a natural living space on the terrace or in the garden.

Relax in the fresh air and enjoy the comfort of reliable sun and weather protection and experience the interplay of light and shade. The design of the free-standing pavilion impresses through its cubic design style and the elegantly integrated technology. The pavilions are available with rotating aluminium lamellas (Hard-Top) or as a robust folding awning (Soft-Top). Each STOBAG pavilion is tailor-made, can be colour-matched to your individual requirements and equipped with various options.

Numerous mounting and various comfort options such as LED lighting, sliding glazing or side shading mean that there are virtually no limits to the patio's range of applications.

BAVONA Hard-Top

MEDITERRANEAN INSPIRATION

The roof system variants with integrated folding awning made from polyester fabric have compact dimensions and provide high stability in wind thanks to the STOBAG patented scissor technology.

BAVONA Soft-Top

BIO-CLIMATIC EFFECT

The roof system variants with inclining weather-resistant aluminium lamellas permit natural air circulation.

BAVONA Hard-Top

ALL-DAY USE

With BAVONA you have the option of tilting the slats up to 160°. This allows you to achieve the ideal balance between sun and shade at any time of day.

BAVONA Hard-Top

LED Lighting

If desired, the harmonically-integrated, dimmable LED lighting provides enjoyment on the terrace until late into the night.

BAVONA Hard-Top

ASSEMBLY VARIANTS

Free-standing or mounted on an outside wall enables the pavilions to be perfectly matched to existing situations.

BAVONA

CAN BE COUPLED

Up to 10 modules can be connected seamlessly in width or length.

BAVONA Hard-Top

ATRIUM SHADING ASTANO

Atrium shading from STOBAG creates a personal oasis of well-being and, thanks to the refined construction, uses the free spaces between existing structures.

Installation between buildings or on existing structures enables effective use of the available space and creates not only new living space in a confined area, but also a visual feature thanks to the modern, cubic design. You are also optimally protected from damaging UV radiation and rain.

The corrosion-resistant aluminium construction not only offers rigidity and protection, it is also extremely durable. The canopy is available in two variants: The Hard-Top version with tilting aluminium lamellas, which can be adjusted depending on light incidence, provide a natural climate with pleasant air circulation, while the Soft-Top version creates a mediterranean ambience through an integrated folding awning. The folding awning fabric provides, through its special coating, not only protection from heat and UV radiation, the high water column of the fabric also makes it rainproof. The protective roof also protects the retracted fabric.

Both variants also offer an additional water run-off, where the rain is channelled away. In the evening, the optional integrated LED strips provide atmospheric light and an optional remote control and operation system ensure simple operation.

Hard-Top

DESIGNS

Hard-Top

Soft-Top

BIO-CLIMATIC EFFECT

The inclining weather-resistant aluminium lamellas permit natural air circulation.

Hard-Top

ROOF MODULE

A 600 × 600 cm area can be shaded with a central support.

Hard-Top

LED LIGHTING

In the evening, the optionally integrateable LED strips contribute atmospheric light.

SIDE / FRONT GLAZING SV1020 | SV1051

Side glazing SV1020

Side glazing is especially suitable when you want to use your terrace or balcony, regardless of the weather. Thanks to side glazing, which can also be retrofitted, you can enjoy hours outside without damp and disturbing drafts.

The STOBAG complete sliding glass panel system SV1020 enables the individual parallel sliding panels to be moved horizontally to one or two sides. On opening or closing the first sliding panel, the other sliding panels are automatically opened and closed by integrated fol-

lowers. The floor-mounted construction means that wide openings can be achieved without the need for additional roof supports.

The profile system SV1051 offers a range of styles in the area of non-insulated fixed glazing. According to customer needs, fixed glazing and special triangular elements with optional skylight with tilt function can be delivered. Optionally, laminated safety glass with clear or matte film can also be used.

The lower ball-bearing mounted carriages ensure optimum and smooth running of the individual sliding panels - even with large opening widths.

The fixed glazing offers a range of set-ups for non-insulated uses.

SV1020 | SIMPLE SLIDING SYSTEM

SV1051 | FIXED GLAZING

SIDE / FRONT SHADING

BAVONA with side shading

Expand your porch or gazebo with an optional vertical awning. Our VENTOSOL side shades reliably protect you from sun, wind and prying eyes. Choose from countless fabric options and decide for yourself how much light should penetrate your new oasis of well-being. The ZIP system, which functions like a zipper, ensures maximum stability of the inner fabric guide.

AWNING ACCESSORIES & OPTIONS

More individuality and convenience with additional options.

STOBAG EXCLUSIVE

INSPIRATION & HARMONY

FRAME COLORS

STOBAG profiles and frame components are powder-coated to ensure you can enjoy your sun and weather protection systems in the years ahead as much as on the day they arrived. This environmentally-friendly process offers effective protection for the structure against environmental and weather factors. The maximum possible degree of colour uniformity in an endless array is guaranteed by the highest quality standards.

8 Classic, 16 Lifestyle and hundreds of Rainbow colours (RAL) offers a choice to fulfill every wish.

COLORS & EMOTIONS

COVER DESIGNS

By choosing a fabric from the STOBAG Collection from European quality weaving mills, you have opted for a top quality high-tech textile product. Let yourself be inspired and enticed by our extensive colour range and the special characteristics of our UV tested acrylic fabrics.

COMFORT & AMBIENCE

AUTOMATIONS AND CONTROLS

We offer you exactly the comfort that you want from your individual awning system, from simple wind sensors to complex centralised air conditioning. Whether you extend an awning via remote control, turn on atmospheric lighting or want to control the façade and conservatory shading by smartphone: Our reliable automatic systems master any situation.

A modern trend of finely structured colors.

Brilliant high-tech fabrics for more «joy of color».
